About this poll

The Mason-Dixon Virginia Poll was conducted by Mason-Dixon Polling & Research Inc. of Washington, D.C.

This poll consists of two separate sections, first a poll of 400 likely Democratic primary voters, and second a poll of 400 likely Republican primary voters conducted Thursday and Friday. Both surveys were conducted randomly by telephone.

The margin of error is no more than plus or minus 5 percentage points on each primary voter sample. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters were surveyed. The margin of error is higher for any subgroup, such as a regional or gender grouping.
